

REMARKS

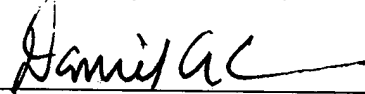

Applicants have amended the priority claim in the specification, as added by the Preliminary Amendment submitted on October 7, 2005, to correct a typographical error. Specifically, the International (PCT) Patent Application Serial No. should be identified as PCT/GB2004/001696, rather than PCT/US2004/001696. Other papers submitted with the application filed on October 7, 2005, including the Application Data Sheet, correctly identify the International (PCT) Patent Application Serial No. with the "GB", rather than the "US", designation.

The Office is invited to contact the undersigned attorney to discuss any matters relating to this submission.
